Elance Customer Relations

This email is a service from Elance Help Center

**Analyse your product with  
customers and get user feedback in  
early stages of development cycle**

**Release early and often to get  
valuable feedback**

**Include testers to test your app on every release**

Regression:  
"when you fix one bug, you  
introduce several newer bugs."

PISA 197

**Monitor consistently what people are talking regarding your app**

**Gather statistics how your customer behaves**

**Log everything to discover issues**
